

# CAMERA2

Brooklyn foursome Camera2 is made up of producer-songwriter-vocalist - Andy Chase (Tahiti 80/Juliana Hatfield/Smashing Pumpkins), guitarist - Michael Jurin (Stellastarr\*), bassist - Aric Gillis (Teenage Kick) and drummer - Mike Williams (Teddybears). The band came together in mid-2012 and soon after completed an album Andy wrote and produced in his home studio with co-production by Blondfire's Bruce Driscoll. Camera2 is a decidedly new direction and a departure from the sounds of the previous projects for all the members who have now stepped into a harder hitting, darker, upbeat and more electronically driven indie-universe.

The music quickly caught the attention of former Morning Becomes Eclectic host, Nic Harcourt, who took the new band under his wing as a mentor and has begun championing them at his new radio home, KCSN in Los Angeles. Over the past 6 months Camera2 has been making music videos for every song on the album, in locations as broad and diverse as rural Pennsylvania, Martha's Vineyard, San Francisco, and their hometown. In each video the band takes a back seat to a striking nine-year-old boy who walks, (or runs), the music through a series of twists, turns and interweaving themes.
